

MANY ARE KILLED IN ALTON DISASTER

EXPLOSION ROCKS PLANT OF WESTERN CARTRIDGE WORKS

Eight Persons Known Dead and Twenty-Six Injured, Many Seriously—All Available Nurses and Physicians Hurried to Plant—Explosion Occurred in Fireproof Structure

(By The Associated Press)
BULLETIN
ALTON, Ill., July 10.—The toll of dead claimed by a terrific explosion at the Western Cartridge company plant at East Alton, five miles east of here this afternoon reached a total of 11, when two more women employees succumbed to their injuries at a local hospital shortly before midnight. The number of injured was reported to be 23, ten of whom were only slightly hurt.

ALTON, Ill., July 10.—Nine persons are known to have been killed and 26 injured in an explosion which occurred this afternoon in the metallic shell department of the Western Cartridge company plant at East Alton. Four of the dead are women. They are: Mrs. Mitti Warren of Alton, mother of ten children. Miss Anna Gorman, of Alton. Miss Ruth Green, of Alton. Miss Hazel Young, of Rockford, Ill. An unidentified woman employee. The men employees killed are: William Brummer of East Alton; Frank Benes, of Alton; Russell Reyburn, of Brownstown, Ill.; Charles Hawkins, Alton; Howard Hunter, of Alton.

PROSECUTION OF LUNDIN CALLED DIRTY POLITICS

Claimed to Be Fight Between Two Opposing Factions

(By The Associated Press)
CHICAGO, July 10.—The trial of Fred Lundin, political associate of former Mayor William Hale Thompson, and 15 others on charges of conspiracy to take over \$1,000,000 from school board funds was branded today as "a dirty, rotten, filthy, sly conspiracy" on the part of a political group headed by Edward J. Brundage, attorney general, to get rid of a hostile group, by Charles E. Erbein, of defense counsel in closing arguments. Politics, Mr. Erbein contended, played a large part in the prosecution. He declared it was only necessary to consider those who are defendants to prove this. "The only part school children play in this case is to be injected as virus and poison in the minds of you men," he added. Prior to Mr. Erbein's arguments, Ralph J. Day, for the prosecution reviewed the testimony of state witnesses in an attempt to prove that the defendants had entered into a gigantic conspiracy to defraud the public. The case is expected to go to the jury Friday.

BANK PRESIDENT TO SAVE INSTITUTION

(By The Associated Press)
GREAT FALLS, Mont., July 10.—Thru a resolution of the directors of the Stanton Bank & Trust Co., which closed yesterday, asking for voluntary liquidation, George H. Stanton, president of the institution, has been questioned by the Dempsey-Gibbons bout at Shelby, pledged his entire private fortune to the settlement of the affairs of the bank if liquidation were allowed.

Campaign Started to Head Off Henry Ford

(By The Associated Press)
NEW YORK, July 10.—Charles D. Hilles, Republican national committeeman from New York state announced today he had started an active campaign to block the nomination of Henry Ford for president by either of the major political parties. Mr. Hilles said he had directed that copies of a statement in which he denounced Mr. Ford's candidacy.

PRESIDENTIAL PARTY IS GIVEN ROYAL WELCOME

Twenty-One Guns are Fired on Arrival at Juneau

(By The Associated Press)
JUNEAU, Alaska, July 10.—Greeted by the presidential salute of 21 guns from Chilkoot Barracks, President Harding, Mrs. Harding and members of their party landed here today to spend the entire day as guest of Governor Scott C. Bone and territorial and city officials. The ideal weather which had attended the Alaskan trip gave way to rain and fog here, but the townspeople, paying no attention, gathered on the wharf in the business section to give the party a hearty welcome. After landing the party was driven thru the town to the governor's mansion, escorted by troops from Chilkoot Barracks, a company of marines from the Henderson, and members of the veterans of the world war. A large crowd gathered about the mansion and despite the rain, cheered loudly when the president and Governor Bone appeared on the portico.

Governor's Introduction
Governor Bone introduced the president who began his address by declaring "There must be a lot of Baptists in Juneau; at any rate people who turn out so generously like this on a rainy day ought to have some measures of return." "We were greatly impressed by the scenery of Alaska during this first part of our trip. "Sturdy, majestic, stalwart and immovable are truly the only words which describe this wonderland of ours. I am proud of you as citizens of the United States. It is good to know of Alaska, and it is our purpose to know you better and have you know our government better."

Speaks of Children
The president then referred to the children who played a prominent part in the greeting extended him and said: "Altho children cannot choose where they are born; yet if they could choose, I think they would select the west." He was greeted with great applause when he declared that he knew the government would "help those who are now children more than it has helped their parents."

At the conclusion of the president's address Secretaries Hoover, Wallace and Work, and Speaker Gillett of the house spoke briefly and then the president and Mrs. Harding held a public reception, shaking hands with the hundreds who gathered about them. Children, miners and Indians formed a considerable part of the group.

KANSAS CITY KLAN BREAKS ALLEGIANCE

(By The Associated Press)
KANSAS CITY, Mo., July 10.—The Albert Pike Klan, No. 45, a local branch of the Ku Klux Klan has withdrawn from the national organization with headquarters in Atlanta, Ga. and has declared its intention of supporting the National Associated Klans and the Associated Klans of Missouri. It was announced here tonight by officials. Alleged inaction by the staff at the imperial headquarters was given as the reason for the move.

Mr. and Mrs. Herman Joachim of Quincy called on their way to Michigan to spend the summer.

France Plans Now To Reorganize Army

(By The Associated Press)
PARIS, July 10.—The plan for the re-organization of France's army of 660,000 men was distributed among the members of parliament today by Colonel Jean Fabry, reporter for the chamber army commission. It contemplates a modernized force based on the lessons of the great war with serious attention to new developments in aviation and war materials. "Aviation and gas," the report says, "are the menaces of the future. Germany, by force of circumstances, must seek her field of action in the air, therefore France must be strong there. "We are preparing the army for war, which we are resolved to prevent," continues the report, "but must be ready to strike the first blow. France is now superior to other nations in aviation except perhaps bombing planes, but she cannot rest satisfied, and must not be content with machine guns in the air, for perhaps the time is near when aerial cannon will appear."

BARGAIN COUNTER BASIS IS LEVEL WHEAT NOW TAKES

Claimed That Price is Less Than the Cost of Production

(By The Associated Press)
CHICAGO, July 10.—There was a demoralized market for wheat today at the close of the board of trade session with prices down to a bargain counter basis of \$1.00 a bushel. According to well informed authorities, dollar wheat gives the grower less than the cost of production, but the market at the end of today's trading displayed no tendency to rebound, notwithstanding that every future delivery had suffered a break to a new low price record for the season. The setback in values as compared with 24 hours before was irregular, varying from 2 1/2c to 3 1/2c a bushel. September delivery closing at \$1.00 to \$1.01, and December at \$1.03 to \$1.04.

New Wheat Arrivals
Altho selling out had been general from the beginning of business, no flurry developed until shortly before the close, it was announced that arrival of wheat in Chicago from the new 1923 crop had already commenced.

Inasmuch as Chicago has of late been the highest market in the country the idea quickly spread that the bulk of the increasing movement of new wheat would be headed in this direction. Hasty liquidation on the part of holders of wheat ensued as prices gave way. This was especially the case with owners who had been clinging to the notion that black rust might destroy much of the spring crop in the northwest.

EXPORT TRADE SMALL

Instead cool weather promised to halt the rust and let the spring crop race to safety. Meanwhile, new export business was paltry in amount and to cap the climax it was apparently shown beyond question that the much-talked-of plans to restrict the movement of new wheat to market were failing to be carried out with anything like the thoroughness which in various quarters had seemed so expected. Corn, oats and hogs as well as wheat all finished at losses to day as compared with yesterday.

DAWN TO DUSK TRIP TO BE AGAIN TRIED

(By The Associated Press)
ST. JOSEPH, Mo., July 10.—Weather permitting, Lieutenant Russell A. Maughan, whose coast-to-coast airplane flight between Dawn and Dusk ended disappointingly for him here Monday, will start back to New York tomorrow morning and plan for another attempt. His disabled craft was put in shape today and he flew it to Rosecrans Field, 12 miles away, where he landed and gave the craft last minute attention before retiring for the night. "I expect to be back in St. Joseph again within a week but I do not expect to stay as long next time as I did this trip," said Lieutenant Maughan. "Instead of asking supper here that night I expect to eat it in San Francisco."

NO OVER-PRODUCTION IN CEREAL CROPS

WASHINGTON, July 10.—The general crop outlook is fair but there is no evidence of over-production of cereal crops as compared with the 1917-21 average, according to the monthly agricultural review issued today by the department of agriculture. Decreased production as compared with the five year average is shown in the case of wheat, corn, oats and rye, the review said, and increases are estimated for barley, apples and peaches. An accumulation of meat animals is also reported.

WOMAN SENTENCED TO DEATH LEARNS MEANING OF WORDS

Not Understanding English Did Not Know Her Fate

(By The Associated Press)
CHICAGO, July 10.—Mrs. Sabella Nitti Crudelle, found guilty yesterday with Peter Crudelle, her husband, of the murder of Frank Nitti, her former husband, and doomed to die, lay tonight in a cell in the county jail praying and moaning.

Today, twenty-four hours after the jury had decided her fate, she first learned that her penalty had been fixed at death. Thru inability to understand English, Mrs. Crudelle did not comprehend the verdict at the close of her trial yesterday and until today no one had told her of her fate. An interpreter was called to the jail this morning however, and in the presence of her attorney, the woman was informed that the jury had fixed the penalty, at death.

Bedraggled and dirty from scrubbing her cell floor, a task she had requested be given her, Mrs. Crudelle smiled at the solemn delegation came to tell her her fate, then shrank into a corner as the interpreter repeated her lawyer's message. As full understanding of the message came she fainted and was taken back to her cell. Hearing on a motion for a new trial has been set for Saturday.

Mrs. Crudelle and her second husband were convicted of slaying Nitti, her first husband, with a hammer as he lay asleep. The story of the crime as told by her sixteen year old son led to the conviction of the two.

OFFICIALS DISCUSS SACRAMENTAL WINES

(By The Associated Press)
WASHINGTON, July 10.—Prohibition enforcement problems, especially those relating to "padlock" injunctions and sacramental wine, were discussed at a conference today of division chiefs with Commissioner Haynes and his new special assistant E. L. Porterfield, who will have charge of court proceedings to "padlock" places in which illegal liquor traffic is discovered. Officials declared they had found the limitations on Sacramento wine were being evaded by a shifting of brands of wine. With the Willis-Campbell anti beer law prohibiting imports of sacramental wine unless a shortage developed, a scarcity, it was said, had been created by changing the labels on sacramental wine, some dealers removing the labels and giving it the brand of beverage wine. Officials said that steps would be taken to meet this evasion and prevent the importation of more sacramental wine which might be diverted into improper channels.

FRENCH FEELINGS HURT BY A WEEKLY

(By The Associated Press)
NAPLES, July 10.—On the request of the French embassy it was stated the people here ordered the sequestration of the current issue of the humorous weekly A. B. C. for a cartoon dealing with the occupation of the Ruhr in a manner considered offensive to French feelings. When the carabinieri reached the printing house, however, they found that all the copies ordered sequestered already had been sold. At Biella, Novara province the authorities ordered suspension of the publication of the Corriere delia Sera for alleged unfair criticism of the Mussolini government.

HOUSE OF DAVID CAN APPEAL CASE

GRAND RAPIDS, Mich., July 10.—Judge John E. Starr has filed an order in the United States district court here granting the request of Benjamin and Mary Purnell and Israelite House of David for permission to appeal from his decision in the case of John Hansel. Hansel was given a verdict against the colony for the value of his work as well as that of his wife and his children while members of the House of David colony at Benton Harbor.

REPORT OF COAL COMMISSION IS NOT AGREEABLE

Gompers Sees Anthracite Report as All One Sided

(By The Associated Press)
WASHINGTON, July 10.—Labor organizations find substantial reasons for dissatisfaction with the report on the anthracite industry just completed by the coal commission, Samuel Gompers, president of the American Federation of Labor declared today in a statement. The commission's recommendations, he said, contain real penalties for miners, but phantom penalties for mine operators, particularly in that they are aimed at making strikes in the industry impossible because they contemplate "compulsory labor."

"It is plain to see that of all the 'bright minds' on the committee not one was a representative of the coal miners," the statement said. "If there had been a single representative of the men who actually produce anthracite coal, the commission would scarcely have recommended that the president be given full power to fix the wages to be paid the workers in the event of a suspension of mining operations."

Right to Stop Work
"Any attempt to outlaw the right to stop work as a means of improving the condition of the working people of the United States is due to fail. Such attempts have failed in the past and will be equally unsuccessful in the future. Labor will never give up the right to strike as a last resort in the fight against wrong and oppression. The very fact that the commission found that anthracite operators are receiving nearly three times as large a profit as before the war is a strong argument against any attempt to force the miners to remain at work, year in and year out, regardless of the attitude of the mine owners."

SAILORS EXPRESS DISLIKE OF UNCLE SAM'S LEVIATHAN

Quarters and Pay Prove Disappointment to Britishers

(By The Associated Press)
LONDON, July 10.—Alluding to possible action by the British authorities against alleged deserting British seamen on the Leviathan the Daily Mail points out that the Leviathan is technically American territory and warrants for arrests could not be served aboard, and the police therefore must wait until the men they want come ashore. Some of these men, however, intend to remain aboard, but others have decided to land and risk what may happen.

QUESTION RIGHTS ON PRIVATE LIQUOR

(By The Associated Press)
WASHINGTON, July 10.—Reports of consumption of private liquor stocks by passengers on board government owned ships have brought before the shipping board the question of its jurisdiction in the matter with the resulting decision that its authority is exercised thru the ship's captain does not run to the extent which would permit any interference with the passengers' actions. It was indicated, however, that this decision might only be temporary and that steps would be taken to obtain a positive ruling on the question, probably from the department of justice.

THUNDERBOLTS PLAY PRANKS AT ROCKFORD

ROCKFORD, Ill., July 10.—Mrs. Henning Erickson, thrown from bed uninjured by a lightning bolt five fire alarms in less than a quarter hour caused by thunderbolts, with but little fire loss, and considerable property damage suffered by public utilities companies, was the result of a freak electric storm here tonight.

SOUTH DAKOTAN IS NAMED BY ELKS TO HEAD ORGANIZATION

James G. McFarland, Watertown, S. D., is Chosen Grand Exalted Ruler at Session in Atlanta—Boston Named Next Meeting Place—Whittington Zouaves Win First

(By The Associated Press)
ATLANTA, Ga., July 10.—James G. McFarland, of Watertown, S. D., was chosen grand exalted ruler of the Benevolent Protective Order of Elks and Boston chosen for the 1924 meeting place at the fifty-ninth session of the Grand Lodge in convention here today. Both actions were unanimous and Mr. McFarland was given an ovation when he accepted the office. The Grand Lodge took an early adjournment for the dress parade and competitive maneuvers of the half dozen drill teams attending the reunion. These were held on the old race course at Piedmont Park and were witnessed by thousands of Elks and their friends. Seven army officers headed by Lieutenant Colonel J. D. Watson, of the fourth corps headquarters, acted as judges.

The Whittington Zouaves of the Jackson, Mich. Lodge, present holder of the trophy again won first prize. Mr. McFarland the new grand exalted ruler, who is a lawyer by profession and former member of the legislature of his home state was nominated by Governor W. J. McMaher of South Dakota. In his speech accepting the office, Mr. McFarland denounced all anti-American tendencies including Bolshevism, I. W. W. and other ill grounded isms of the present day, and declared the "great American fraternity" of Elks stands committed "to defend our country and constitution against attacks by all such elements."

GERMANY RANKS SECOND IN SHIP BUILDING PLANS

Only Country Showing Increased Ship Activities

(By The Associated Press)
NEW YORK, July 10.—World ship building during the last three months has declined to new low levels. Germany alone of all the maritime nations, showing increased activity says the midyear report of Lloyds' register of shipping made public today. Ship yards of all nations had on June 30 an aggregate of two and a quarter million gross tons of work—approximately 300,000 tons less than March 30 and 400,000 tons less than six months ago. The United States, which, at the end of March was building 34,000 more tons of merchant ships than at the first of the year, was building 8,000 tons less on the date of the survey.

SLUMP IN GREAT BRITAIN AND IRELAND

Ship yards of Great Britain and Ireland experienced a sharp slump in activity as all the other maritime nations together; they absorbing 154,000 tons of the world decrease of 316,000 tons during the quarter. Germany now holds second place among ship building countries. She is constructing more than twice as much tonnage as her nearest competitor, France, and two and a half times as much as the United States. Great Britain and Ireland lead with 1,338,000 tons. Other countries rank: Germany 352,400 France 170,900 Italy 141,500 United States 133,700 Holland 109,000 Japan 72,800 British Dominions 45,000

HEAT CAUSES TWO WAUKEGAN DEATHS

(By The Associated Press)
Waukegan, Ill., July 10.—Two deaths were reported from the heat today when the temperature climbed to 102, the season's record. Dan Holland, fifty years old, a Lake Forest bachelor and Clinton M. Griswold, 55, a Waukegan painter, also unmarried, died, it is believed from heat prostration.

Early Recognition of Mexico Now is Seen

(By The Associated Press)
NEW YORK, July 10.—Wall street heard rumors today that differences between the American and Mexican members of the arbitration committee had been settled and that recognition of the Obregon government might be announced by the state department at any moment. The rumor apparently was based on the fact that the international committee of bankers, headed by Thomas W. Lamont of J. P. Morgan and company, had yesterday issued its formal call for the deposit of Mexican bonds comprehended in the agreement reached earlier this year. This step would not have been taken if the way to recognition of the Obregon government were not assured.

UNITED STATES OF RUSSIA
The Russian Soviet Government, with all its professed dislike of the United States, has paid us the compliment of adopting a federal constitution modeled after this country's. There is a federal union consisting of Russia proper, Siberia, the Far Eastern Republic and the so-called autonomous republics of Khiva and Bokhara. All these are to be presided over by a single executive department and legislated for by a congress corresponding to our own.

There is one marked difference, however. There is not a word in the new Russian constitution regarding freedom of religion, freedom of speech, freedom of assembly and freedom of the press, all of which are expressly guaranteed by the first amendments to our constitution. When Russia adopts a similar amendment, it may begin to get somewhere with its new regime.

IMMIGRANT EBB AND FLOW
"Immigrant tide" is an appropriate figure of speech. A tide ebbs as well as flows.

Immigration to this country is now arousing comment because it is at the full flood. The receding aliens attract little attention, but they must be reckoned with to get an accurate size-up of the situation. It is the "mean tide" or average that fixes the line of sea level. In the case of immigration, it is the net gain that counts.

That is far less than most Americans suppose. In the last 12 months there were about 310,000 immigrants admitted, and about 199,000 departed, leaving a net gain of only 111,000.

If all the newcomers had stayed, it would have meant only one-half or one-third as many recruits as the country used to gain in a year. As matters stand, it was far less. The gain was only

Old Jacksonville
AN OLD NAME HONORED
(BY ENSLEY MOORE)
Member Illinois Historical Society

The oldest institution of Jacksonville is Illinois College. One of its first graduates—in 1835—was Richard Yates, and that has been an honored name here, in Illinois, and in the country, ever since. It has been a name especially distinguished in public affairs.

That Richard Yates was a member of Congress from this district, and was Governor of Illinois. He passed on, many years ago.

Jacksonville and Illinois College—in the class of 1880—had another Richard Yates, son of the first.

He has been Governor of Illinois—from Jacksonville—and member of Congress from the state-at-large.

Philadelphia, as every one knows, is Independence Hall, where Lincoln made one of his most noted speeches, en route to his inauguration.

This year on Independence Day Philadelphia honored our great name by having the second Yates to deliver the Fourth of July address.

The following program will be of interest to our citizens, as it honored our native-born citizen and patriot.

Philadelphia is great on "Old" and distinguished names, and the Citizens Committee named exemplifies this. But the list is too long to print.

Strawn's Crossing Club Met Yesterday
The Strawn's Crossing Women's Club was entertained yesterday afternoon at the home of Mrs. Frank Hunter near Sinclair. About thirty-five members and guests were present. Mrs. W. E. Murray read a paper entitled "Independence Hall" and a paper on "American Composers" was given by Mrs. James Rawlings. This last production was illustrated with songs and instrumental numbers. Mrs. Rawlings was accompanied in her solo work by Miss Smith.

In the course of the afternoon the hostess served delicious refreshments. The Misses Emma and Lizzie Hunter of Jacksonville were guests of the club.

Heavy Truck Wrecks Old Wooden Bridge
Truck Belonging to County Crashes Thru Bridge Near Hard Road—Structure Is Damaged, and Machine Mired Deep in Mud of Creek

A large truck belonging to the county crashed thru the old wooden bridge on the Brooklyn avenue road sometime yesterday morning, and workmen have not yet succeeded in extricating it from the wreck of the bridge and the mud in the creek, even with the aid of a tractor. The bridge is located north of the hard road east of the city. The Brooklyn road was used as a detour route while the new bridge on the hard road was under construction.

The truck was not damaged in the accident, but the bridge was completely wrecked. The heavy truck sank to the creek bed and mired in the mud up to the hubs. A force of men and a tractor was brought to the scene and worked all day Tuesday but without success. The bridge has been in bad condition for sometime, and the news that it had fallen in was no surprise to those familiar with it.

Westminster Missionary Society Meets.
Members of the Missionary society of Westminster church held their regular meeting Tuesday afternoon at the home of Mrs. Mary Cunningham, 1151 Mound Avenue. Quite a large number of the members were present and there were also several guests.

The program of the afternoon included a talk by Miss Elizabeth Peck, who for three years was a teacher in the American College for Girls at Cairo, Egypt. Miss Peck told many interesting details of her work among the girls in that far away land and gave her audience a vivid idea of the wonderful results which are being accomplished in the school. A social hour followed the address and at this time the hostess served refreshments.

Bridal Party Is Entertained at Dinner
Dr. and Mrs. H. L. Griswold entertained at dinner Tuesday evening at their home, 1606 Mound avenue, in honor of Miss Mary Hall, whose marriage to Rev. C. C. Northing of Winchester will be solemnized today. An elaborate four course dinner was served at 6:30 o'clock to members of the bridal party. A color scheme of pink and yellow was carried out, these colors being used on the place cards and the flower decorations were also in accord.

AGED MAN IS BADLY BEATEN BY NEGROES

Horace Montgomery Attacked by Colored Men Who Say He Started Fight—Buck Taylor and Hudson Wallace Held at Police Station

Horace Montgomery, about 65 years of age was attacked and badly beaten about 5 o'clock yesterday afternoon in Broadway Alley not far from the rear of the city hall. His assailants were two colored men, Buck Taylor and Hudson Wallace, who alleged that Montgomery threw at them and started the fight.

Witnesses to the attack called police. Patrolman Baker and Sergeant Casey responded and found Montgomery lying in the alley covered with blood and dirt. He appeared to be cut severely about the head and was badly bruised. An ambulance was summoned and Montgomery was taken to Our Saviour's hospital. Dr. H. C. Woltman was called and dressed the injuries. He stated that Montgomery did not appear to be seriously hurt. At latest reports last night he was resting comfortably.

Taylor and Wallace were arrested and are being held in the local police station pending further developments. Police stated that the negroes had been drinking. Montgomery has been employed at the county farm and is known as an unoffending character about the city and county.

GIRLS FRIGHTENED BY NIGHT NOISES

Police Called to North Main Street Home by False Burglar Alarm—Girls Climb Thru Second Story Window onto Porch and Rouse Neighborhood with Cries

Police were called to 843 North Main street about 10 o'clock last night by a report that an intruder was in the half of the house occupied by a family named Sharp. Several young girls who were sleeping in the upper rooms had climbed thru the window to the top of a front porch and were almost in hysterics. They told police that they distinctly heard someone ascending the stairs inside the house.

Police searched the place thoroughly and found all entrances to the Sharp half of the house safely locked. William F. Tiff, who occupies the other half of the residence, stated that he had heard nothing. He had not yet retired when the screams of the girls alarmed the neighborhood. It is the belief of police that the girls were only badly frightened by noises from the outside of the house. Not a trace of an intruder could be found about the premises.

Interest in a picture of the children that made today, grows as they grow.

COUNTY JOINS IN SEARCH FOR BOOZE

Sheriff Oyer Wright and Deputies Burley Jones and Henry Strawn joined yesterday with officers of Brown and Cass counties in a search for bootleggers along the Illinois river. A conference was held and later the officers searched an island in the river where it is understood liquor is being made. A certain notorious character of the river vicinity is said to be making the booze and distributing it in the three counties.

However, the search was vain and nothing was seen of the bootlegger or his equipment. Sheriff Wright and his deputies searched a house near Meredosia but without result.

Baby Food That Cannot Sour

Every mother knows how hard it is to keep baby's food absolutely fresh and sweet in hot weather.

This is a vital matter, for the least bit of sour food may mean a very sick baby.

Mothers who cannot nurse their babies need not worry about the purity of their baby's food when they use

NESTLÉ'S MILK FOOD

Nestlé's is a complete baby food in powder form. It cannot sour. It is made from the pure milk of healthy cows and modified so that it will agree with the delicate stomach of a little baby.

Three generations of babies have been kept strong and healthy on Nestlé's Milk Food.

SMUTS FEARS ANOTHER WAR

Capetown.—South Africa. (By the A. P.)—General Smuts speaking recently at the Union South African government, defined the British Empire as a grouping of free states held together by their common allegiance on terms of freedom and equality, and operating on a basis of consultation.

The famous South African leader said it was quite possible that another great European calamity might arise, and he therefore urged that the position of the British Empire be defined. The European war, he said, arose from the fact that the position of some of the great powers was not clearly defined.

Where Quality Counts

One third of the cost of a good plumbing, heating or electric job is for work hidden from sight beneath walls and floors, and underground. Costly trouble is sure to develop unless this "unseen" work is properly done. Reliable materials and skillful workmanship cost less in the end—and we supply 'em.

ANOTHER BANK FAILS FOLLOWING RECENT BIG FIGHT

Claimed Due to Closing
of Great Falls
Bank

(By The Associated Press)
SHELBY, Mont., July 10.—On the heels of the Dempsey-Gibbons fight of July 4 the First State Bank of Shelby was closed today. Mayor James A. Johnson of Shelby, one of the promoters of the

fight, was president of the concern. A notice posted on the door of the bank said the closing was an immediate result of the suspension of the Stanton Trust & Savings Bank of Great Falls. According to a statement made tonight by L. A. Murrie, cashier of the bank, the concern that closed its doors today was adversely affected by the championship bout only thru criticism that was aroused by Mayor Johnson's connection with the raising of the second \$100,000 paid to Dempsey and the subscribing by individual depositors to the initial \$100,000 with which the fight was tied up last May.

Where Money Went
Many depositors checked against their accounts or borrowed from the bank to purchase tickets as a means of contributing to the first \$100,000 fund, according to the statement, and later when Mayor Johnson was the target for broadside after broadside of criticism because of the blunders of the promoters, other depositors are said to have withdrawn their cash from the bank.

With its reserve badly depleted from these causes, the bank was confronted Monday with the fact that its Great Falls correspondent, the Stanton Trust & Savings Bank, entered voluntary liquidation and closed its doors. With the closing of the Stanton Bank there was no source from which the local bank could immediately draw currency.

Active Promoter
George H. Stanton, president of the Stanton Trust & Savings Bank of Great Falls, also was active in raising the second \$100,000 paid Dempsey, but he has repeatedly declared since the suspension of business by his bank yesterday that his identification with the fight promotion in no way contributed to the closing of the bank's doors. During the negotiations prior to June 15, when the second \$100,000 paid Dempsey became due Stanton was credited with advancing \$50,000 to the promoters, but both Stanton and Johnson have since declared the money came neither from the Stanton bank or Stanton's personal resources. Instead, they say, the money was furnished by Johnson personally.

After July 4 deeds covering a considerable amount of Shelby real estate and Toole county farm land from Johnson to J. W. Speer of Great Falls, counsel for the promoters, were recorded with the county clerk and recorder. The transfers were filed for record July 6 and 7, and showed the consideration received by Johnson to be \$1.

AMERICA'S NEW SHIP COMPLETES MAIDEN VOYAGE

Leviathan Carried 3,000 Passengers and Averaged 23.65 Knots

(By The Associated Press)
SOUTHAMPTON, July 10.—The American liner Leviathan completed her first trans-Atlantic voyage as a passenger ship under the American flag when she arrived here at 10 o'clock tonight. Her speed averaged 23.65 knots an hour. The mayor of Southampton boarded her and was received by Albert D. Lasker, former chairman of the United States shipping board.

The big liner brought 3,000 passengers and crew safe, sound and happy into the quiet waters of Southampton Harbor and dropped anchor a few hundred yards from where the pilgrim fathers set sail for America three centuries ago. The voyage was a complete success in every way, both to the passengers and officials of the shipping board who expressed their delight to newspapermen who boarded her. Throughout the trip the giant ship was as steady as a rock, the reporters were told by Mr. Lasker, which, of all aboard, appeared to be the most pleased with the Leviathan's performance. Up until midnight, two hours after her arrival no English law

officer had boarded the big ship to serve summonses upon supposed deserters from British ships who were reported to be among the crew. Mr. Lasker said that if there were any English deserters aboard he knew nothing of it.

FIND JOURNAL OF FLIGHT OF BALLOON WRECKED RECENTLY

Last Entry Made at Eleven o'Clock Thursday Night

(By The Associated Press)

CLEVELAND, O., July 10.—The Navy Balloon A-6698 plotted in the national elimination balloon race out of Indianapolis, July 4th by Lieutenant Louis J. Roth with Lieutenant T. B. Null as his aide, evidently dropped into Lake Erie late Thursday night or early Friday.

Lieutenant James H. Strong, U. S. N., who went to Fort Stanwley today and shipped the wrecked balloon and its basket, which, with the body of Lieutenant Roth were recovered from the lake, to the naval air station at Lake Huron, N. J., said on his return tonight that he had come into possession of a journal giving the account of the flight. The last entry was made at 11 o'clock Thursday night. It showed that the balloon was flying at an altitude of 12,000 feet.

No Parachute Carried
Examination of the bag showed that a rip panel had been pulled. Lieutenant Strong said. This would indicate, he said, that the airman were making a forced landing, or were trying to reach a lower altitude. An inventory also found showed no parachute was carried.

The balloon passed over some islands at 10 o'clock according to an entry in the journal and flew over Point Pelee a little after that hour. It also showed that several shots were fired at the bag as it flew over Indiana.

The body of Lieutenant Roth will be taken to Cedar Rapids, Ia., tomorrow for burial. It will be accompanied by Lieutenant Strong, who will act as the government's official representative at the funeral.

VILLAGE TENDERED IN JURY TRIAL AS CHARACTER WITNESS

Offer Made in Trial of Jurors in Governor Small Case

(By The Associated Press)

WAUKEGAN, Ill., July 10.—Twenty-six defense witnesses testified today in the trial of John B. Field, Eddie Kaufman and Eddie Courtney charged with conspiracy to corrupt the jury which tried Governor Small in the Lake county circuit court last summer. The adjournment came late in the afternoon, when the defense counsel formally tendered the "whole village of Antioch with the exception of one family" as character witnesses for the defense.

Character Witnesses
Judge Jacob Hopkins ruled that the 38 character witnesses of the defense already heard would constitute the complete character testimony. The state will be permitted an equal number. The defense offer of the whole village was in objection to the limitation ruling of the court. Ninety-seven villages were in court this morning and when the afternoon session opened an additional 200 prospective witnesses were brought in by the defense counsel.

All of today's testimony was that defendant Field was of good character and repute in his own home town, and that James Riley, Antioch saloonkeeper and chief state witness was of bad reputation as to truth and veracity.

Witnesses Differ
Several witnesses also told of the "bad reputation for truth and veracity" of Thomas Somerville, another state witness. Riley is alleged to have distributed money in this county during the governor's trial with a view of securing an acquittal thru bribed jurors.

Thirty-eight of his fellow townsmen, called during the last two days by the defense have testified that they would not believe Riley under oath. The same testimony regarding Somerville was given by a score of witnesses. Juror Field is expected to take the stand tomorrow. The Somervilles were those expected by the defense in the offer of the whole village. Virtually the entire male population of Antioch was in court today.

GOATS FROM CHICAGO TO SAVE NORTHERN BABIES

Chicago, (By A. P.)—The Grenfell mission in Labrador needs goats to supply milk to preserve infant life, and the herds of some Chicago millionaires are being assessed to meet the demand. Mrs. James A. Patton and Charles A. Stevens are among those who have contributed pure bred animals.

It has been said that the lives of 500,000 babies could be saved annually in the United States if the infants could have goats' milk, which comes nearest to mothers' milk. Goats' milk sells at about 40 cents a quart, and even at this price it is hard to get.

Mrs. A. E. Thompson and Mrs. Leo Sullivan were Tuesday shoppers from Roodhouse.

Introducing

The newest model of Amer-
ica's Greatest Washer

The

"1900" CATARACT

This washer is the latest development of the most popular type. It is the most imitated washer on the market. It is the only washer that rocks as it swings, creating the water agitation—the original Figure 8—the famous Cataraction.

There is no machinery in the tub—nothing to lift out and clean. The "1900" will wash the daintiest, most delicate and intimate wearing apparel a woman possesses—positively without harm to the fabric. The clothes lie in the tub which rocks gently back and forth, forcing the water through the clothes instead of dragging and pulling twisting and turning the clothes through the water in an effort to get them clean. This movement completely reverses the action of the old fashioned washer.

It's certainly worth coming in to see. You will be astonished at the number and size of pieces which can be put in the tub at one time and washed in eight minutes. The tub holds two big double blankets or twelve pounds of dry clothes. The big double gas burner under the tub heats the water in a few minutes. Sterilizes your clothes—keeps them sweet, fresh and snowy white.

These are only a few of the special features of this great washer.

TELLS OF VISIT TO HISTORIC SPOTS

S. M. Henderson of Concord Visits Interesting Places in Woodford County, Ill.

Eureka, Ill., July 8th, 1923
Dear Journal:
I have the honor and privilege of visiting two historic spots in Woodford county this afternoon. Through the courtesy of my son's father-in-law, Mr. C. F. Werts, I had the pleasure of a ride in his big car to the town of Metamora, 10 miles northwest of Eureka. The other members of our party were Clarence Wertz, Everett Samuels, and Donald Henderson.

We first inspected the old court house which is being repaired and restored to its old time appearance. According to the information given by Custodian Charles Stivers, the building was built in 1845. Later, two wings were built, but as that was done after Lincoln's time, they have been torn away and the building will be restored to as near what it was in 1855, as possible.

Mr. Tobias is in charge of the repairs, and he informed the writer that the outside dimensions are 40 by 60 feet and two stories in height. It is hoped to have the building repaired and redecorated by the date set for the Old Settlers Reunion, Aug. 25th. Hoping to be present on that occasion, we will reserve a more complete description until then. The next place of interest we visited was a short distance south of Metamora, in a locust grove, where lies a big pink colored boulder. Here Lincoln and Douglas both spoke in 1858.

Make Your Home Worth MORE

C. C. SCHUREMAN
PLUMBING AND HEATING
112 North East Street

In the month of October. We forgot to give mention of the two bronze tables in front of the old court house and in Central park which were placed there as markers, one having a good likeness of Lincoln. The county seat of this county was first at the little town of Versailles, now obsolete, except a country school house bearing that name. The county seat was moved to Eureka later on. Versailles school is less than a half mile from Donalds home, where I am sojourning for the present.

We saw wheat in the shock in only two fields in our 32 mile trip. Early oats will be cut tomorrow, and late oats a week later, perhaps. The wheat is all fall wheat, some bearded and some of the smooth variety. Not a great deal of wheat is grown here. I think the yield will be satisfactory. Judging from all appearances, oats are good, too. Corn is about all "laid by" and looks very good. Potatoes will be a fair crop. In some cases, the second crop of alfalfa has been cut. Our neighbor, Mr. Cresham has a fine field of pumpkins which will go to the Eureka Cannery. A good many acres of sweet corn will also be canned.

We are located on a well oiled road five miles southeast of Eureka, on the way to Bloomington. My respects to all my old friends in "Old Morgan."

BASEMENTS FLOODED WHEN SEWER CLOGS

The 14-inch brook sewer which has been plugged up for the past eight days will probably be relieved today. Workmen have been working continuously trying to locate the stop, by digging holes every few yards in an attempt to locate the trouble, but not until yesterday was the proper spot finally located and a new shaft down to the sewer will be dug today. The sewerage overflowed into the brook, making worse sanitary conditions than usual in that vicinity. The men have been forced to work on platforms on account of the slime and filth.

The stoppage of this sewer, which according to official figures is only capable of handling about 3 per cent of necessary requirements, has caused some trouble up as far as East State street, according to reports yesterday that water was standing in some of the basements in the east business section.

The present condition is an admirable object lesson showing the inadequacy of our present sewer system and showing plainly that for the sake of health it will be necessary to enlarge on the system very soon.

APPELLATE COURT PASSES ON LOCAL CASES

In the appellate court in Springfield yesterday the judgment of the Morgan county circuit court in the suit of James M. Emmons, administrator, vs. Jacksonville Railway & Light Co., was reversed. In the court here a judgment for \$4,000 was awarded the complainant and the case was taken to the appellate court by Bellatti, Bellatti & Moriarity as attorneys for the railway company.

The appellate court affirmed the judgment of the Morgan county circuit court in the suit of Mrs. W. R. T. Masters vs. M. F. Dunlap. This was an action relative to a lease given Mr. Dunlap by Mr. Masters as security for a loan. The finding of the lower court was in favor of Mr. Dunlap and the case was appealed by Mrs. Masters. As indicated, the lower court judgment has been affirmed. Mr. Dunlap was represented by Bellatti, Bellatti & Moriarity in this case.

DINNER IS GIVEN AT MURRAYVILLE HOME

Mr. and Mrs. Rees Jones of Murrayville entertained a number of relatives and friends Tuesday at dinner, the affair being arranged in honor of Mrs. Mary Bracewell of North Dakota, who is visiting her mother, Mrs. J. A. Carlson, and other relatives in the county. Mrs. Bracewell expects to leave Thursday night for her home in Grand Forks, N. D., after a very pleasant visit in the county.

The guests at the dinner were Mr. and Mrs. Norman Carlson, and family, Mr. and Mrs. Samuel Jones, Mr. and Mrs. Howard Jones and baby of Davenport, Iowa, Mrs. W. W. Mehrhoff and children.

MURRAYVILLE FAMILY ENJOYING OUTING

Dr. J. H. Spencer and family of Murrayville are now spending a week or two at Buena Vista cottage at Lake Maranas. The following Murrayville people have been guests of the Spencer family since they have been at the cottage: Mrs. Mary E. Wright and daughter, Miss Mildred, S. F. Sooy and family, Miss Yelda Millard, Miss Bessie Rea, George and Frank Kennedy, Benjamin Wright and Russell Miller.

WILL SPEND A MONTH ON WESTERN COAST

Dr. and Mrs. E. L. Hill and son Edward left last night for San Francisco and Long Beach, Cal., expecting to spend at least a month in the latter city. They are going by the way of the Rock Island route and will spend a brief time at Colorado Springs, Denver and Salt Lake City, enroute to the western coast.

STATE HOSPITAL BUYS MORE LAND

Institution is Compelled by Ordinance to Remove Hogs to New Quarter—Fifteen Acres Are Purchased From Mrs. Thomas Fitzpatrick.

In compliance with the new city ordinance prohibiting the keeping of hogs in the city limits, the state hospital has purchased a tract of 15 1/2 acres adjoining the 117 acres recently purchased from Mrs. Robinson, and this tract will be used for the hogs of the institution which number in the neighborhood of 300 pure bred Duroc Jerseys. The tract was purchased from Thomas Fitzpatrick for a consideration of \$5,500. A commodious hog barn will be erected on the tract and arrangements made for the feeding of the table refuse from the institution which is quite an item in the way of hog feed.

The hog industry at the hospital has become quite a factor in the financial life of the institution, enough pork being produced for local consumption and all young stock being raised on the place.

ALEXANDER CLUB WILL MEET TODAY

Regular Session of Woman's Club to be Held at Home of Mrs. W. H. Schott—Other Alexander News.

Alexander July 10.—The members of the Alexander Woman's club will be entertained Wednesday afternoon at the home of Mrs. W. H. Schott. Mrs. Frank Johnson will present a sketch of Edgar Guest, and readings will be given by Mrs. N. J. Carpenter from "Just Folks" and "A Heap O' Livin'." Response to the roll call will be by reciting a short poem. As is usual at the club meetings, a social time, will be spent following the program.

Among Alexander residents who were in Jacksonville Tuesday afternoon to attend the funeral of the late E. S. Henriksen of St. Sterling were E. E. Kumie, William and Lillian Kumie, Mrs. Rosa Strawn, Mrs. O. E. Ryan, Miss Agnes Hagel, Mrs. Joseph Zeller, Mrs. Henry Hall, Mrs. J. W. Reif, Mrs. W. H. Henriksen, Miss Ann Henriksen, Louise Henriksen, Mr. and Mrs. F. J. Kaiser, Milton Rubie, Mr. and Mrs. Ben Davenport, Mr. and Mrs. George Hall and daughter, Miss Rachel, Mrs. W. J. Kumie, Miss Anna Colwell.

WINCHESTER CHURCH WILL GIVE SOCIAL

Winchester, July 10.—Members of the St. Marks Catholic church here are planning an ice cream supper and program to be held on their lawn Thursday evening. Music will be furnished by the Winchester band and vocal numbers will be given by the Harmony quartet of Jacksonville. Plans are being made for a large crowd and scores of gallons of ice cream have been ordered.

Mr. and Mrs. Otis Waller and little son motored here recently from their home in Oelwein, Ia., for a visit at the home of Mr. and Mrs. Charles Sibert.

County court convened here Tuesday and set the time of the Johnson-Walker trial for 9 o'clock Wednesday morning.

A. Callanah of Peoria was a business visitor in Winchester today.

William Wainwright, who was badly hurt in an auto accident here Sunday continues about the same today.

E. L. Kendall of Bluffs was here on business Tuesday.

GROWTH OF DE MOLAY UNPRECEDENTED

Kansas City, July 10.—With the granting of letters temporary to the Parkland Chapter at Louisville, Kentucky, the Order of DeMolay marked its one thousandth chapter in the United States, according to an announcement by Frank S. Land, Grand Scribe and founder of the movement.

No fraternal organization has grown with the same rapidity as DeMolay, which, within a period of four years has grown from a boys' club of nine members to a membership of well over one hundred thousand of the country's finest youth.

DeMolay, Mr. Land said, is a secret organization for boys between the ages of sixteen and twenty-one and is built on a ritual anyone would subscribe to. It stresses good citizenship, good citizenry and teaches constructively about schools, churches and like subjects.

No other organization, according to Mr. Land, stresses citizenship so strongly. It teaches a boy implicit faith in his parents and guides him into better citizenship through good morals and manners.

HERE FROM CHICAGO

Mr. and Mrs. J. W. Christie arrived here yesterday from Chicago and are stopping at the Dunlap. They have a number of friends in this city, where they were at one time residents.

Mr. and Mrs. B. W. Smith are to start today for an extended stay at their favorite summer home, Bay View, Michigan.

HOWELLS IS OFFERED BIG CHURCH IN WEST

Local Baptist Pastor Received Invitation to Consider First Church at Phoenix, Ariz.—Has Made No Favorable Answer as Yet.

The pulpit committee of the First Baptist church of Phoenix, Arizona, has just written the pastor of the First Baptist church of Jacksonville, Rev. A. P. Howells, asking whether or not the local pastor would consider a call to the western church. This is the largest Baptist church in Arizona and being located at the state capital, has an influential membership which dominates Baptist influence in the Southwest. The denominational headquarters are located in Phoenix.

This unsolicited invitation has come to Rev. Howells through the splendid work that he did while acting pastor of the First Baptist church of Douglas, Ariz., in February and March, 1921. Just prior to his coming to Jacksonville, the Jacksonville church is in good condition, a large number having recently been received into the church, the finances, minus bazaar and suppers, are better than for years, and the outlook for the fall and winter months seem to be encouraging. Rev. Howells, as yet, has not given the western church a favorable answer.

MISS ARMSTRONG HEARD IN RECITAL PROGRAM

Miss Ruth Armstrong, who as a vocalist is well and favorably known in Jacksonville, recently had the principal part in a recital given at the studio of Arthur E. Westbrook in Bloomington. The Bulletin of that city made the following comment on the recital program:

"The leading artist of the afternoon was Miss Ruth Armstrong, who has been assistant in voice at Illinois college at Jacksonville, during the past year, but for the coming year is to be at the head of the voice department of the music school at Beaver Dam, Wisconsin. She was assisted by the talented young violinists Miss Elaine Taylor of Clinton and Miss Pauline Zinser of Bloomington.

"It was an unusual artistic pleasure for the company of the lovers, who were gathered at the studio. Miss Armstrong has a fine presence and a voice of rare quality. Though technically a contralto, her voice has a wide range and great purity of tone. It revealed dramatic fire, and possibilities of great intensity and passion.

DEATHS

White

Mrs. Sarah White, wife of Charles White of Franklin, died at 6:30 o'clock Monday evening at a local hospital. The remains were removed to the funeral parlors of Arthur G. Cody and prepared for burial. Funeral services will be held at 11 o'clock Thursday morning from the Baptist church at Franklin.

DeSilva

Mrs. Susie DeSilva for a long time a resident of Jacksonville died at St. Johns hospital in Springfield Tuesday morning at 3 o'clock.

Deceased was the widow of John DeSilva whose death occurred in Jacksonville about six years ago. Until November 24, 1921 she resided on West Court street, leaving at that time with Mr. and Mrs. Joshua Vasconcellos for Los Angeles California where she resided until last June. On account of continued poor health she was taken to the hospital on her return here.

The remains will be brought today to the residence of her cousin, Mr. and Mrs. Joshua Vasconcellos, 1060 North Fayette street and the funeral services will be held from Northminster church Thursday afternoon at 2 o'clock.

MASTER IN CHANCERY HELD PROPERTY SALES

Master in Chancery Henry W. English yesterday sold under foreclosure proceedings a garage building in Waverly. It was purchased by George T. Romand for \$1,875. A residence property belonging to Peter Haxton was also sold by the master in chancery under foreclosure proceedings, and was purchased by George Irwin of Quincy, who was the holder of the mortgage.

BURLINGTON PREPARES FOR RECORD BREAKING TRAFFIC

The first of a lot of sixty freight locomotives built according to specifications for the Burlington Route by the Baldwin Locomotive Works of Philadelphia has just been received.

These engines are designed for high speed freight service but are so balanced that they may be interchangeably and efficiently used in slow freight service and, in emergency, in heavy passenger traffic service as well, and cost approximately \$55,000 each or \$3,300,000 for the lot. More than a mile of tubes is contained in each boiler; exhaust steam is used to heat the water in the tender before it is pumped into the boilers and automatic coal pushers which lessen the work of the fireman, shove the coal forward in the tenders. All in all, these engines promise decidedly economical and effective operating results.

The Burlington is anticipating a record-breaking freight traffic this fall and winter and this addition to its motive power equipment will enable it to promptly handle the traffic offered.

MAKE NEW TENNIS COURTS ON CAMPUS

Work was begun yesterday in the construction of two new tennis courts on the Illinois college campus. The old court east of Beecher Hall has been plowed up, and two new courts are to be made on the site of the old one and will include some additional ground. The system of tennis courts on the campus is being greatly improved and the facilities for playing the game at Illinois will be much increased by the time college opens in September.

Work on the new chemical laboratory in the basement of Sturtevant Hall has been temporarily halted, awaiting the arrival of the mill work and the laying the composition flooring which will be started in the immediate future. Other minor repairs in the buildings and equipment on the Hill are being made during the summer season.

JOE KIRKWOOD AND SWEETSEED TURN IN LOWEST GOLF CARD

Players Qualifying for National Open Golf Game

INWOOD, N. Y., July 10.—(By the Associated Press)—Joe Kirkwood with Jess Sweetser, amateur champion, for a partner played a perfect game in his two trips around the course in the second qualifying round for the national open golf championship, turning in a card of 144. He was under par in the morning in 70, two under par and his afternoon card was 74, two above. He was ten strokes better than any of the other eighteen, who finished within the limit of 159 to qualify.

Kirkwood played the first

three holes in the morning in one under par. On the fourth he was trapped on his second shot but made a par five. Trapped again on the fifth he laid his mashie shot within seven feet of the pin and sank the putt for a birdie four. On the eighth he encountered trouble his second was in the bunker and he took a five over par. His drive on the ninth was sliced and his second hit the branch of a tree and came to rest under the steel fence skirting the hole.

Climbing over the fence he hit the ball scarcely twenty feet back into the fairway. His fourth, a beautiful mashie niblick shot, was dead to the pin and he sank his putt.

He scored 37 for the first nine even par. On the incoming nine he continued his marvelous play and was home in 33. On the eleventh, thirteenth and sixteenth he had birdies. Kirkwood's putting played a large part in his 70 for he had eight one-putt greens.

In the afternoon he carried on

and finished the first nine in 36, one under par. He was aided by birdies on the third and sixth. On the long third he sank a putt of more than 20. He ended the perfect day with 38 for the last nine. The only slip he made on the short of was at the 13th hole where he took three putts.

Sweetser's Score
Sweetser started in the morning by finding the trap at the left of the first green and he took a five. The next two holes he played in par but at the fourth he was in the rough and ended with a six, one over par. At the seventh hole, par of which is three, the amateur champion's drive landed in the fairway and kicked sharply against a fence and lay between it and a hedge. He straddled the hedge and managed to get his ball to the fairway. His pitch to the green was short and he took two putts for a five. This apparently upset him and he took three putts on the eighth hole after being well on in two. He was out in 42, five strokes over par. Coming home he reeled off nine fours in succession for a 36, giving him a 78 for the round.

Te best Sweetser could do on the first holes in the afternoon was a string of fives. The fifth, sixth and seventh he played in par. On the seventh after being trapped on his drive and forced to play short of the green on his second he laid his third within 15 feet of the pin and sank the putt for a par five. On the par four ninth he again took a five. He was out in 40. Sweetser started for home with two par fours on the tenth and eleventh holes but over-pitched the par three lake hole and took a four. On the thirteenth hole his second shot was 10 feet from the pin. He putted for a birdie three. Sweetser got another bad break on the 17th when his drive rolled into a wagon rut in the rough. He made a good recovery, but failed to get his third shot up and took a five. All thru the day his putts refused to drop.

John Black Starts
John Black of Wichita, Kansas, started this morning in fine style going out in par 37 with birdies on the long third and fifth holes. Coming back he scored two more birdies on the tenth and 14th but went into the traps four times, taking 38 for a 75. On the tenth he shot out of a trap 75 yards and dropped his ball for a three.

Francis Quimet, Black's companion on the round, got into trouble on nearly every hole, driving from trap to bunker and back to trap again. He took a 40 both ways for a round trip of 80.

In the afternoon positions were reversed, Black managing to find all the hazards for an 84 and Quimet pulling a 75 with a par 37 and 38 back.

YANKS TAKE GAME BY SCORE 3 TO 2
Was Pitcher Battle—Sox Hurler Largely Responsible for Defeat by Intercepting Throw to Plate

CHICAGO, Ill., July 10.—New York got the breaks today and defeated Chicago 3 to 2 in a pitching duel between Cvangros and Jones. Cvangros was largely responsible for his own defeat as he intercepted a throw to the plate which permitted Ward to score from first on Smith's double, and after a 29 minute rain the little Chicago southpaw lost control of the ball, one of his passes in the seventh inning paving the way for the winning run.

SENATORS ARE HELD BY BROWNS' HURLER
Shocker's Thirteenth Victory and First League Twirler to Win Thirteen Games—Score 9 to 1

ST. LOUIS, Mo., July 10.—Urban Shocker held Washington to four hits today and St. Louis defeated the Senators, 9 to 1. It was Shocker's thirteenth victory of the season. He is the first major league pitcher to win 13 games this year. The Browns pounded Zahniser for 13 hits, Goslin, Williams and Severid smashed out circuit drives, the latter's coming with the bases filled in the fourth inning.

PIRATES TAKEN IN BY GIANTS 9 TO 8
NEW YORK, July 10.—The Giants won a hard fought ten inning slugfest match from Pittsburgh here today by a score of 9 to 8. The Giants made five home runs, the fifth by Frisch tying the score with two out in the ninth. New York then won in the tenth on successive singles by Kelly, Jackson and Snyder. In the second inning Meusel and Cunningham hit home runs on successive pitched balls in the second.

PROTEST ENTERED ON JULY 4TH GAME
BROOKLYN, July 10.—The Boston National League club has protested the second game of a double header with Brooklyn at Ebbets Field on July 4. It was announced today on the ground that Umpire Hart erred in allowing Fournier, Dodger first baseman, a home run when his drive hit a flagpole on the right field wall and bounced back into the field.

Brooklyn club, however, claims that the flagpole is four inches beyond the limits of the field, a fact which it asserts sustains the arbiter's judgment.

INDIANS WIN FIRST AGAINST ATHLETICS
CLEVELAND, O., July 10.—Cleveland took the first game of the series from Philadelphia 4 to 3, for the possession of second place. Chle outpitching Heimach. Shortstop Sewell was the big factor in the victory, driving in three of Cleveland's four runs and starting in the field, twice saving Uhle by starting double plays.

Greater Crops

CONDITIONS in the farming industry are the broad-gauged barometers of general business in the United States.

When crops are good prosperity is general.

It is obvious, therefore, that the Standard Oil Company (Indiana) can turn its facilities and talents to no more important task than that of assisting the farmer to secure a greater crop return per acre.

The experience of the past ten or fifteen years has demonstrated that farms where automotive equipment is used are operated on a lower cost level and with a higher crop return than is the case where animal power is used.

The Standard Oil Company (Indiana) is doing its utmost to promote the use of motorized machinery on the farm. Throughout ten middle western states this Company maintains a system of distribution which insures the farmer a dependable supply of gasoline, kerosene, lubricants and other products of petroleum at all times.

In this territory the Standard Oil Company (Indiana) maintains 3,780 bulk stations, out of which some 7,000 trucks and tank wagons carry its products to the farmer's home or if necessary to the tractor in the field.

This is one of the services which only a big organization could perform and it is a service worth while.

To emphasize the far reaching benefits of motorizing farm equipment, it is only necessary to state that farm property values in the United States have increased from forty billions of dollars in 1910 to eighty-five billions in 1920—an advance of 107% for a ten-year period.

The service performed by the Standard Oil Company (Indiana) has been a factor of importance in making this increase possible.

NEW YORK, July 10.—Prices worked to lower levels in today's stock market in response to a series of unfavorable domestic developments while speculative uncertainty over the outcome of the Franco-British impasse on the reparations question was reflected in the unusually small volume of trading. The dullness of any full day session this year. The Wall street is apparently marking time pending the announcement of the British policy on reparations which is expected to be made in the house of commons by Premier Baldwin on Thursday. The governmental crop report indicating an increase of \$1,000,000,000 in crop value this year was favorably received by the financial community as indicating an increase in the farmers' buying power. Special significance was attached to the fact that practically all of the estimated increase is represented by higher values for cotton and corn with resultant benefit to the southern and middlewestern sections of the country.

The favorable effect of the crop report was counteracted however, by a decrease of nearly 600,000 tons in the unfilled orders of the United States Steel corporation, further cuts in important commodity prices including wheat, rubber, lead, sugar, and Pennsylvania crude oil and further indication of decreasing production in other important industries, notably the automobile field.

While the unfilled tonnage of the steel corporation was a disappointing surprise to Wall street it actually had little effect on the steel shares. U. S. government bonds held firm.

Market Report

By The Associated Press

WHEAT PRICES AT NEW LOW LEVELS

CHICAGO, July 10.—Wheat tumbled in price today to \$1.00 a bushel—figures once considered ideal from a farmer's point of view but at present said to be well below the cost of production. Prospects that the domestic spring crop would be ready to harvest before being overtaken by blackrust had much to do with today's break in values, and so did the fact that the first car of new wheat to reach Chicago this season had just arrived here. The market closed weak, with all months at a new low price record for the season including September 100 to 100 1/2 and Dec. 103 and 103 1/2. Corn finished 1/2 to 2 down, oats a shade to 1 1/2 to 1c off, and provisions at a setback ranging from 5c to 40c.

It was only in the final hour of trading that acute weakness developed in the wheat market. Until that time, the buying had been of sufficient volume to absorb the offerings fairly well and to prevent more than moderate declines in price.

The fact that harvest conditions prevailing in the winter wheat region were auspicious added to the weight of selling pressure on the market and for at least the time being left values with power to rally.

Corn and oats descended with wheat. Provisions reflected weakness of hog values as well as of grain.

St. Louis Cash Grain
ST. LOUIS, July 10.—Cash wheat No. 2 red \$1.15; No. 3 red \$1.12; corn No. 2 white 89 to 90; No. 2 yellow 88.

Oats No. 2 white 42 1/2; No. 3 white 42.

Close wheat July 98 1/2; September 98 1/2; corn July 85 1/2; September 85 1/2; oats July 39 1/2.

ARRIVAL OF CAR OF NEW WHEAT RECORDED

CHICAGO, July 10.—The feature of the cash wheat market today was the arrival of one car of new wheat from southern Illinois. The car grades No. 1 hard and sold at \$1.05 1/2 or 2 1/2c over July. It weighed 61.6 pounds. Prices were 1c lower. Offerings were light and the bulk of the receipts on contract.

Shipping sales here were 10,000 bushels to exporters. Cash corn was in good demand. Elevator houses continued the best buyers. Prices were 1c higher, with the basis 1c lower on mixed. Sales here were 75,000 bushels.

Cash oats was also in good demand, with offerings light, trading basis were 1 to 2c higher. Sales here were 100,000 bushels.

Cars inspected wheat 15; corn 47; oats 26.

Indianapolis Livestock
INDIANAPOLIS, Ind., July 10.—Hogs receipts 13,000; 15 to 20c lower; heavies \$7.45; light weights \$7.45 to \$7.50; top \$7.55, pigs \$7.25 down.

Cattle receipts 1500; steady to strong; steers \$8.00 to \$10.90; cows \$5.00 to \$7.50; heifers \$7.00 to \$10.00.

Calves receipts 1000; strong to 50c higher; veals \$9.00 to \$13.00. Sheep and lambs receipts 1200; weak; lambs 50c lower; sheep \$2.00 to \$4.00; lambs \$8.00 to \$14.

WHITE HALL PLANS BENEFIT FOR BAND

Plans Are Being Made for Benefit of White Hall Band Saturday Night, July 21—Other White Hall Items.

White Hall, July 10.—Efforts are now being put forth to bring about a betterment of the financial condition of the local band. The organization has made great strides during the past year under the direction of F. A. Brooks, and it has been so liberal with its services in various ways that some form of financial support is being devised.

The band turned out for the chamber of commerce organization meeting last Friday night, and the completion of that organization carried a full assurance that the stability of the band is to have earliest consideration by the new directing heads of the new commerce body, with C. A. Ruckel as president and H. O. Tunison as secretary pro tem, the latter appointment pending the employment of a salaried secretary. The band turned out again Saturday night at the Catholic social on Whiteside Park, which was attended by an immense gathering.

One week from next Saturday night a band benefit will be held on Whiteside Park, and next Saturday night it is stated that the 4-19 class of the Baptist Sunday school is to hold a social with band accompaniment. Some of the talent already announced for the band benefit include: Mrs. Mabel Meisenbach of St. Louis, and Miss Lillian Ross, recently returned from Chicago. The band may have a booster engagement soon if plans mature for trips in the interest of the White Hall Chautauqua that is announced this year for August 19-26.

Rain Much Needed.
Rain is a much needed commodity in and surrounding White Hall and Roodhouse. There were heavy showers last Saturday night over the eastern portion of Greene county, and other sections have been visited by rains that have not touched the two centers of population of the northern part of the county. Carrollton came in on the Saturday night rain.

According to the weekly weather and crop report for this section for the week ending Monday, the total rainfall has been 0.29 of an inch, which occurred on the 3rd. The highest temperature reading was 95 on the 6th and 7th, and the lowest 63 on the 3rd, the mean being 78.5 degrees. Wheat threshing is now in full blast with prospects of record yield, ranging from 25 to 35 bushels and higher, grading mostly No. 2. One corn grower refers to the present condition of corn as the most promising ever staged at this period of development. The second cutting of alfalfa promises good, but timothy and clover are short in both acreage and condition. The apple crop is coming on excellently. The plague of small insects over this section of Illinois was most pronounced last Friday and has now subsided.

IN MEMORY OF CHARLES NOAH BRANER Whose death occurred June 14, 1923

Who can death's mysteries understand, who can ignore its beckoning hand. Tho life would ask, be spared awhile. Death answers give me man.

When we give up what we most prize, when one we loved has closed his eyes. So dear it seems our life of dreams. Forever vacant his. But death's dread shroud of inspired awe is but our God's exacting law.

Tho dead in Christ we rise to see. The dawn of life more perfectly. And tho we miss that loving face In heaven's home it fills its place. Thru years that toll past one by one. Oh God we pray "Thy Will be Done." A Friend

CARD OF THANKS
We desire to express our thanks to the friends and neighbors for the many kindnesses shown during our recent sorrow. Mrs. F. W. Scholfield Mr. Walter Fearnough and family. Mr. and Mrs. Charles Scholfield Mr. and Mrs. Will Scholfield.

OLD RESIDENT NEAR DEATH
"I had not eaten food for 10 days and was slowly starving to death. Given up by five doctors, I tried a bottle of Mayr's Wonderful Remedy, which gave relief at once. I am 75 years old and would have died but for your wonderful medicine. The jaundice is all gone and I am gaining appetite and strength every day." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists.—(adv.)

A Circle Tour of our Golden West

Going via the Pacific Northwest
Returning from California
via Colorado

The Low Cost of the Trip Will Surprise You

It is an experience of a lifetime to become acquainted with the great storehouses of scenic, climatic, agricultural, industrial and other wealth in the Pacific Northwest and California.

In making such a trip, it is both natural and logical for one to select that route on which the most and the best of the astounding wonders in our fascinating West can be viewed from the car window.

To the end that Burlington patrons may reap the fullest possible measure of delight, benefit and inspiration which such a wonderful trip affords, schedules have been developed and perfected via two widely different routes so that the most of the best scenery is passed during daylight hours.

Through the combination of these two routes par excellence into one grand circle tour of our impressive and progressive West, you can travel several thousand miles, through a dozen great states, on one ticket. You can see practically every kind of scenery, every phase of topography, every variety of plant life, every species of animal life, every sort of mineral wealth, and every beauty of landscape that the entire American West affords.

Aside from the broadened vision which travel only can give, such a trip may take you to the land of your dreams, to a home in this wonderland of natural beauties, to an opportunity in this wonderland of natural wealth, with a future wide open.

Let me tell you more about it and let your home-town railroad introduce you this summer.
